## Fire extinguisher Pz6 HOME EDITION

HOME edition/p>

Portable foam fire extinguisher with CO2 cartridge and with charge of 6 litres (Pz6). That fire extinguisher is intended for effective extinguishing of initial fires of class A (solids) and class B (flammable liquids).

Because of the suppression effect (AFFF) and cooling (water), the foam fire extinguishers are characterized by a reduced risk of fire reignition. Once the fire is put out, a layer of foam is created which successfully prevents evaporation of flammable vapours with a simultaneous cooling .

Although the use of water-based fire extinguishers is not recommended for extinguishing fires involving electrical devices under voltage, specially designed nozzles of these fire extinguishers enable extinguishing fires involving electrical devices under voltage of up to 1000 V from a distance of more than 1 m.

Catalog number **520013HE**

### Specification

Device type	portable with CO2 cartridge
Type of extinguishing agent	foam AFFF
Fire class	ABF
Edition	Special Edition
Extinguishing electrical equipment under voltage	up to 1000V
Extinguishing media quantity	6 lit.
Workshop	CO2 - 60 g
Temperature range	0°C do +60°C
Device mass	11 kg
EN3 efficiency	34A   233B   40F
Efficiency according to Croatian rulebook	10 JG
Dimensions (diameter/height mm)	170 / 558
Standard	EN3
Directives	PED 2014/68/EU
